Every State in the country should take similar legislative action.

SHIRKING A DUTY.

It seems to be the disposition at Police Headquarters to pass over the police clubbing episode at the Union Square meeting as lightly as possible. Indeed, Commissioner PORTER, singularly enough, is said to be disposed to excuse if not to justify the action of the force. Gen. Ponran was not always of opinion that men should be pushed too promptly into action.

It is the duty of the Police Board to make a thorough investigation of the affair. Those responsible for it ought to receive some punishment. The broken heads may not seem of much consequence to the Police Commissioners, however painful they may be to their It is not surprising that some people find it owners. But the unwarranted attack of the officers on an unoffending meeting should be censured, as a warning in the future. Supt. MURBAY is the determined enemy of unnecessary clubbing, and he will not screen the responsible parties.

Not for what it did, but for what it might have led to, the breach of duty is most reprehensible. The Police Commissioners have no right to overlook an outrage that might have brought upon the city a deplorable dis-

They evinced an enthusiasm and a zest of pleasure that the chronic critic has long outlived. And with it was a discrimination worthy of the veteran theatregoer. No good point of dialogue or scenery was missed by their alert eyes and ears. The tumultuous applause came in where it be-longed. The heroine had their active enment. DIRTY MURPHY AROUND LOOSE.

Bill Nye's Apprehensions Aroused by th Recent Laramie Cyclone.

A cyclone which whizzed by Laramie, Wyo., re-cently, avoiding the town but causing a good deal of destruction on the plains, was seen to fouch the earth and throw up an immense cloud of dust. A ranchman who passed the spot soon afterwards found that it had scooped out a big basin-shaped hole as large as an ordinary cellar.

The above item, which I clip from last evening's WORLD, interests me a good deal, as I believe that the cloud of dust referred to consisted of a gendeman named Dirty Murphy, who used to live in that neighborhood. I wish that in the interests of ience more could be ascertained in relation to this matter. Mr. Murphy was the most obdurate case of soil that I ever beheld, and I have every ing for him in an aimless sort of way for some competing companies used to turn their attention wards him with a squirt that would cave in a pan French plate glass, or meit down a 'dobe house in two secting moments, but I don't think they er successfully opened Soiled Murphy's pores. I hope that this cyclone has succeeded better and that Mr. Murphy may shortly be heard of in lows in a healthy glow or in the capacity of a shower of flesh. He was a man who was much thought of among his neighbors, and his sins were rather those of omission than of commission. Be-fore this cyclone his heart was always reported to

I have not seen Mr. Murphy for many years, but I have not lost interest in him. The last time I saw him I shall not seen forget. We were thrown together under the most peculiar circumstances. [From the Newark Journal.]
The New York EVENING WORLD came out yesterday afternoon, and made a success the like of which was never seen in the history of newspapers. There were 110,000 copies printed, and the demand far outran the supply. The paper was taken from the delivery wagons so fast that the routes could not be gone over, and in the suburban regions there were no papers to be had. The reputation of THE MORNING WORLD makes it unne say anything in regard to the quality of this new venture. Of course it will be made up somewhat differently for the afternoon field, but the general character will be the same and apparently as good.

ANTI-POVERTY LADIES GET DIMES WITH-OUT SELLING CHANCES.

Mayor Hewitt Well Up in a Race for a 98 Cent Umbrella for His Interferenc — Charges that Games of Portune are Per-mitted at Other Fairs—The Voting Going on Spiritedly-Tensing the Policemen.

'Twas the Post Thomson who sang of " ucky chance that oft decides the fate of nighty monarchies." It was this same chance or rather a combination of chances, which have decided the fate of the last week of the Anti-Poverty Fair, at the Madison Square Garden, though none of those who are inter ested in the success of the enterprise are willing to acknowledge that the chances in this instance are lucky. They rather con-sider them as those of which Othello dis-coursed to the fair Desdemona, "Most disas-trons."

sider them as those of which Othello discoursed to the fair Desdemona, "Most disastrous."

Raffles, roulette and random purchases, combined with the desire of foolish man to get a return of profit fabulously in excess of the amount warranted by his investment, have proved the greatest source of income on this occasion, as they have at every fair, and especially those gotten up for church charities.

The police have suppressed these devices this week and the result is most noticeable. It was confidently and sorrowfully expected by Chairman Croasdale, of the committee having the fair in charge, that the receipts on Monday night, under the new order of things, would fall off one-half, but as a matter of fact they were two-thirds as much as the average for all previous nights. They had "grasped the skirts of happy chance," but they were hardly able to "breast the blows of circumstance" inflicted by the Society for the Prevention of Vice, whose officers placed their interdict upon what they termed gambling.

Mayor Hewitt is held responsible by the leaders for this interference with the methods of the fair, and the women are particularly bitter in their denunciation of him.

Last night one of the ladies said to another: "I saw that sneaking detective who made all the trouble for us around to-night."

"Bad scran him! Where is he? Let's mob him," replied the one addressed.

"No; let's vote him this picture of Mayor Hewitt for his pains." said a third, pointing to the donkey to which so many have attempted to attach a caudal appendage without success since the fair was opened.

Mayor Hewitt is running a hot race with Archbishop Corrigan for the 98-cent umbrells to be voted to the most unpopular man in New York, because of his alleged interference. The Rev. Dr. Howard Crosby, Mgr. Preston and Joseph J. O'Donohus have been added as candidates in this contest.

An old lady came into the Garden at about 9 o'clock last night, and, stepping up to Mr. McCabe, at the Fourteenth Assembly District's booth, said: "I have just come from Father Flood's fair, where I bought chances, and I'm going to buy chances here. We've got as much right to sell chances on things as Father Flood."

Mr. McCabe said that there are a number of Catholic church fairs in progress in the city and that Mr. Croasdale had in the office tickets for chances bought at every one of them.

city and that Mr. Croasdale had in the office tickets for chances bought at every one of them.

Despite the injunction from the officials and the order of Mr. Croasdale, one young lady deliberately and unblushingly offered chances on a ten-cent pin-cushion at 25 cents apiece last night, and that with several policemen wandering about looking for violators of law in this respect.

These poor fellows in blue and brass had anything but an easy time of it. One of them, No. 895, a handsome fellow, was besieged on every hand by laughing girls importunate in their demands that he should contribute to the cause. He knew that this was all done to plague him, and it was plainly evident from his Casabiancan air that he didn't want to remain where he was, but was acting under orders in doing so.

If "chances" were lacking to do something for the cause of Anti-Poverty opportunity was not, for a visitor could not move a step without receiving a pleading look and a more persuasive lip appeal to put a penny into the extended basket or spare a dime in voting in the thousand and one contests that are being waged for the possession of articles of varying values. Then, too, a new scheme was inaugurated, and that was the disposal of varying values. The day that Robert Stoepel was buried, by a strange coincidence, brought the news to this city of Mile. Aimee's death in Paris. The little comic opera singer was also one of Madame's boarders when in this city, and with Robert Stoepel and Marie Aimee in her house at the same time, the Frenchwoman felt that she had accomplished something.

She had not heard of Aimee's death, however, when she reached the Little Church Round the Corner. The news was borne to her by a sallow little Italian flutist, known in the theatrical orchestral world.
